## Objectives

---

A Full-Stack Web Developer with applied experience in building scalable web applications using React, Next.js, and Node.js. Focused on problem-solving and continuous skill development.

## Projects

---

### 1- Mini-Facebook Website

Built a social media web application with core features such as user authentication, posting content, and social interactions.  
Implemented friend management, follow/unfollow functionality, post reactions, notifications, and media handling.

**Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js, imagekit, Ingest, MongoDB, Redux Toolkit

[Live demo](#)

[Source code](#)

### 2-E-Commerce Platform (Full-Stack)

Built a full-stack e-commerce platform with product management, user authentication, and online payments.  
Developed REST APIs, implemented secure authentication, integrated a payment gateway, and managed global application state.

**Tech Stack:** React.js, Bootstrap, Node.js, Express.js, MongoDB, Redux Toolkit, Paymob, SendGrid, Multer

[Live demo](#)

[Backend code](#)

[Frontend code](#)

### 3- SaaS Financial Management Platform

Built a SaaS platform for financial tracking with CSV import, analytics dashboards, and authentication system.  
Implemented data visualization, reusable UI components, and optimized database queries.

**Tech Stack:** Next.js, TypeScript, Tailwind CSS, Node.js, PostgreSQL, Drizzle ORM, Recharts, shadcn/ui

[Live Demo](#)

[Source Code](#)

### 4- Electronics Shop - Admin Panel

Built an admin dashboard for managing products, users, and orders in an electronics store.

Implemented secure admin authentication, product image uploads and sorting, dark mode, and role-based access control.

**Tech Stack:** Next.js, TypeScript, Tailwind CSS, MongoDB, Node.js, react-sortablejs, next-themes, cloudinary, NextAuth

[Live Demo](#)

[Source Code](#)

## 5- Electronics Shop – User Website

Built a customer-facing e-commerce website with authentication and responsive user experience in addition to simple animations.

Implemented form validation, persistent state management, secure authentication, and optimized UI Interactions.

**Tech Stack:** Next.js, TypeScript, Tailwind CSS, Redux Toolkit, Paymob, cloudinary, React Hook Form, Zod, framer-motion

[Live Demo](#)

[Source Code](#)

## Education

---

Al-Azhar university 2016-2021

Bachelor of Science in Pharmacy.

## Skills

---

### TECHNICAL SKILLS

#### Front-End:

**Core Web:** JavaScript, TypeScript, HTML, CSS

**Frameworks:** React.js, Next.js

**Styling and UI:** Tailwind CSS, Bootstrap

**State Management:** Redux, Redux Toolkit and redux-persist

#### Back-End:

**Frameworks:** Express.js, Node.js

**Database:** mongo DB, PostgreSQL

#### Front & back:

**Security:** JWT, Bcrypt.js, CORS, Clerk, next-auth

#### Tools & Deployment:

**Editor:** VS Code

**Version control:** GitHub

**CI and Deployment:** Vercel and Render

### PERSONAL SKILLS

1- Problem Solving

2- Fast Learning

3- Self-Motivated
